

Document Intelligence - Operations Note

Reference: DS-2026-0919

The service accepts documents and stores each original file.

A worker extracts text while the client checks job progress.

Queue messages contain identifiers rather than document bytes.

Retries must preserve the original job and avoid duplicate results.

Upload limit: 20 MiB. Maximum PDF length: 100 pages.

Measured values: 42 records, 98.5 percent, and 1250.75 units.
